There are some elements of the movie that I liked, like the villain getting several ridiculous clothes that make it look like an idiot. When Bob captures Polark, he decides to retire from the espionage game and tells Gillian he wants to make a long-term commitment. I have no idea who this guy was or if I saw him before, but he was very septic. When Gillian unexpectedly has to leave the city, Bob jumps with the chance to take care of children in an effort to gain his affection. Because, in all honesty, this is not a particularly good film, as it practically reaches every stereotype associated with the gain. And the rock practically made a career before realizing that the friendly movies are a lot better than the ones that are not. DVD \$ 25.99 DVD - \$ 19.99. August 16, 2019 Jackie Chan as a Chinese spy disguised in Sando for the CIA (do not think about this excerpt for a long time) that has to Convincing the children of the woman he wants to marry that he is a good guy, only the children do not want to hear. Bob and the lives of children are placed in danger and Bob, obviously, has to use the skills he has accumulated over the years to take them from this situation. It is not even something that is really great or even that creative, but there are some laughs because of the actor's reactions playing the villain. "The spike next neighbor shows very little of the chan of Jackie that we all know and love, and it is not nothing more than the same movie of American Children. Being recycled to the same time (see the policeman "e e" The pacifier "e e" Fairy "e e" etc In terms of action, there is really not much in the traditional sense, but it does dish a couple of caricature fighting scenes. Unfortunately, however, there is enormous confidence in wirwork, so although most scenes are played for laughter, they end up being tediously stupid thanks to clumsy jumps and flips. But it's also very limiting in that you can't really transcend the truly top echelon of Hollywood Superstardom, if that's what you really want, just making movies that only families can see. Meanwhile, Chan's brand stuntwork is occasionally called, and there are one or two segments where it moves acrobatically around an enclosed space or climbs a wall with fire facility. But he's really not very good here. It would be something if they touched on these stereotypes to subvert them with some legitimately clever comedy, but not. W Super Reviewer January 16, 2017 This continues the long tradition of having a badass action hero for the little jokes in a super familiar movie. I understand that Chan makes these standard Hollywood vehicles to pick up an easy paycheck, but it's just a shame that they always need to be quite as terrible. Technically speaking, no, not really. Because there are certain gender stereotypes that make some people hesitant, if not immediately refuse, to watch the movies. Acrobatics are nothing special, but that's fine, they're really the best part of the movie and obviously doesn't compare to some of the bags that Mr. Chan has packed throughout his career. I am not going to talk about Jackie's diminishing abilities, because this is a horse that has been beaten for his truth, but he still does the best he can, even though he is not put in a movie where his skills, even at his age at the time of this movie, can stand out. I realize that this E. emlif esse a odnitsissa avatropmi em ofAn ue sam ,oditnes otium rezaf ofAn nothing about this movie that is clever. When you have Billy Ray Cyrus featured as a secondary character, then you know you can't really expect much in the way of quality acting. But I have to be objective and the movie isn't what I would call good. Beyond this point, the film takes the ever-so-familiar format of turning an established action hero into a superhuman babysitter, and is therefore pretty much devoid of any kind of originality or genuine entertainment value. Unfortunately though, she can't be with a man unless her children accept him, and the three unruly toddlers can't warm to boring old Bob. The film mimes heart but actually has only a little. Is it a bad movie? Compared to the rest of the cast though, his performance is practically Shakespearean as Billy Ray Cyrus proves he is as bad at acting as he was at singing while Amber Valletta and the so-called "Russian" bad guys are so awful that it hurts. So the film is one scene after another of him trying to get a heart-to-heart with the little hardheads, punctuated by typical frenetic choreographed Chan action set pieces. Kevin M. I can't recommend this, because it is a bad movie, but it's by no means the worst movie I've seen in the last six months. Schwarzenegger did it with Kindergarten Cop, I've had a rough couple of days, or at least someone in my family has, so it's been a bit of a down period. However, when Poldark somehow escapes and decides to come looking for revenge, Bob's babysitting job is about to become his toughest assignment yet. If you're a seasoned Jackie Chan fan expecting "The Spy Next Door" to be another action packed outing, then you should probably switch off after you've seen the opening credit montage. With that said, the movie, even if I thought it wasn't very good, was somewhat watchable. Bob Ho is a Chinese spy who has been working with the CIA to track down and capture a Russian terrorist by the name of But he showed glimpses of greatness at the remake Karate Kid and he has been good in some of his Hong Kong films. And no one is, except for maybe Madeline Carroll, who plays teenager. And the reason I chose that was because I wanted something goofy that does not require much brain while I was watching. And I say something, because I do not know exactly what was downloaded and why it was important. Yes, it's bad, but it's what I needed to watch last night. Needless to say that the agency in this film is not good, even by Jackie Chan patterns. Whether they are stories with tacky and sentimental resolutions or with day so eats that at Donny Osmond is ashamed. The point of rupture of points and know the blacks are worse than that. To help him mix, Ho comes posing as a pen importer and upon dating his neighbor Gillian, a single mother with 3 children. And that is not fair, because as I mentioned in my comment to Skiptace, Jackie is a better actor than he could come across. And I do not mean that in a derogatory way, it is clear, it is nice to have movies that you can watch with your family and have a good time with them for a while. Vin Diesel did with the pacifier. This is simply because of the fact that he does not command the English tongue, as well as, even, Arnold Schwarzenegger. Chan is slowly ill as the potential father beside him and although he tries his best with weak material, clearly fights to inject any of his own personality on paper. The story is nothing to speak, children cause Bob, a Chinese intelligence agent borrowed to CIA, more problems when uploading something that takes the Russians to them. But I really do not care about this movie. All.
